SUMMARY

Final year Computer Science student with a strong interest in machine learning and data science. Experienced in building predictive models with Python, Pandas and Scikit-learn. Enjoys turning messy data into clear insights.

EDUCATION

B.Tech in Computer Science, Savitribai Phule Pune University, 2021 - 2025

SKILLS

Python, Machine Learning, Data Analysis, Pandas, NumPy, Scikit-learn, SQL, Matplotlib, Statistics, Git, Jupyter

EXPERIENCE

Machine Learning Intern, DataNest Technologies, Pune, Jun 2024 - Aug 2024

- Cleaned and analysed customer datasets using Pandas and NumPy.
- Built a churn prediction model with Scikit-learn and improved recall by 12 percent.
- Wrote SQL queries to extract training data from a PostgreSQL warehouse.
- Used Git for version control and documented experiments for the team.

PROJECTS

- House Price Prediction: trained regression models in Python and compared them using cross validation.
- Customer Segmentation: applied machine learning clustering techniques on retail data and visualised results with Matplotlib.
