Aurangabad, Maharashtra

SUMMARY

Cybersecurity enthusiast focused on network defence, vulnerability assessment and ethical hacking. Participates regularly in capture the flag competitions.

EDUCATION

B.Tech in Computer Engineering, Dr. Babasaheb Ambedkar Marathwada University, 2021 - 2025

SKILLS

Network Security, Penetration Testing, Cryptography, Kali Linux, Wireshark, Linux, Firewall, Python, Git

EXPERIENCE

Security Analyst Intern, CyberShield Labs, Pune, May 2024 - Jul 2024

- Performed vulnerability scans and penetration testing on internal web applications.
- Monitored network traffic with Wireshark to detect suspicious activity and possible attacks.
- Wrote Python scripts to automate log analysis and report security incidents.
- Documented firewall rules and recommended security improvements.

PROJECTS

- Intrusion Detection Lab: configured a firewall and monitored attacks in a virtual network.
- Password Cracking Study: compared cryptography techniques and password hashing methods.
