Chennai, Tamil Nadu

SUMMARY

AI and natural language processing student passionate about language models and text analytics. Has hands-on experience with NLP pipelines, deep learning and machine learning in Python.

EDUCATION

B.Tech in Artificial Intelligence and Data Science, Anna University, 2021 - 2025

SKILLS

Python, NLP, Natural Language Processing, Machine Learning, Deep Learning, PyTorch, Scikit-learn, NumPy, NLTK, spaCy, Hugging Face, Git

EXPERIENCE

NLP Research Intern, LinguaTech Research, Chennai, May 2024 - Aug 2024

- Built text classification models using Scikit-learn, NLTK and spaCy.
- Fine-tuned transformer models for sentiment analysis with PyTorch and Hugging Face.
- Implemented named entity recognition and topic modelling experiments in Python.
- Maintained experiment code on Git and wrote short technical reports.

PROJECTS

- Fake News Detector: applied NLP techniques and machine learning classifiers to news articles.
- Question Answering Chatbot: developed a retrieval based chatbot using TF-IDF and cosine similarity.
