Hyderabad, Telangana

SUMMARY

Cloud and DevOps engineer who automates deployments and manages scalable infrastructure. Focused on reliability, monitoring and continuous delivery.

EDUCATION

B.Tech in Information Technology, Osmania University, 2020 - 2024

SKILLS

AWS, Azure, Docker, Kubernetes, Jenkins, Terraform, CI/CD, Linux, Git, GitHub, Python

EXPERIENCE

DevOps Engineer Intern, CloudNimbus Solutions, Hyderabad, Feb 2024 - Jul 2024

- Containerised microservices with Docker and deployed them on Kubernetes.
- Created CI/CD pipelines using Jenkins and GitHub for automatic testing and release.
- Provisioned AWS and Azure infrastructure with Terraform scripts.
- Wrote Python scripts to monitor servers and automate Linux maintenance tasks.

PROJECTS

- Auto Scaling Web App: deployed a web application on AWS with load balancing and monitoring.
- Pipeline Templates: built reusable Jenkins pipeline templates for the engineering team.
